## **2.0 BACKGROUND INFORMATION**

### **2.1 General**

The Board has determined that an annual audit of its books, accounts, and financial transactions shall be made and completed within six (6) months after the close of its fiscal year, and for that purpose shall employ a Registered Municipal Accountant of New Jersey.

The Board is authorized to manage the Joint Health Sciences Center in Camden on behalf of the Association. The Board, as agent for the Association, has determined that an annual audit of the Association's books, accounts and financial transactions shall be made and completed within six (6) months after the close of the Association's fiscal year, and for that purpose shall employ a registered municipal accountant of New Jersey on behalf of the Association.

### **2.2. The Rowan University/Rutgers - Camden Board of Governors**

The Board is an instrumentality of the State, having been constituted under the New Jersey Medical and Health Sciences Education Restructuring Act (hereinafter "Restructuring Act") P.L. 2012, c.45, s.34. On August 22, 2012, Governor Chris Christie signed into law the Restructuring Act. Specifically, Sections 33 and 34 of the law created the Board and gave it broad powers. The primary purpose of the Board is to facilitate joint development of curricular offerings, produce significant positive economic development outcomes, and engage the Camden community on health-related issues. The seven (7) member board consists of two members appointed by the Rowan University Board of Trustees, two members appointed by the Rutgers-Camden Board of Directors, and three members appointed by the Governor with the advice and consent of the Senate. The fulfillment of the Board's mission will be achieved through the development of health sciences programming and the creation of a vibrant health sciences corridor anchored by and in partnership with Rowan University, Rutgers-Camden, Cooper University Hospital, MD

Anderson Cancer Center at Cooper, Coriell Institute for Medical Research, Camden County College and the Cooper Medical School of Rowan University. The Legislature created the Board with the vision that it would leverage existing education, research and medical assets in Camden to create and sustain economic growth and civic engagement in the city and the broader South Jersey region. The Board’s mission translates into three overarching themes: (1) education; (2) economic development; and (3) civic engagement.

## **2.3 THE JOINT HEALTH SCIENCES CONDOMINIUM ASSOCIATION, INC.**

The Association is a non-profit corporation established to own the leasehold condominium created under the Leasehold Master Deed, recorded on February 26, 2019 in the Office of the Camden County Clerk in Deed Book 11086 at Page 1306, et seq. (the “Master Deed”). Under the Master Deed, the Board is designated as Manager of the Association. The Association’s financial accounting is separate from that of the Board and its cash receipts and disbursements are handled through accounts in the name of the Association managed by the Board as Agent for the Association.

The members of the Association are Rutgers, the State University of New Jersey, Rowan University and Camden County College. The Association is governed by an Executive Board comprised of appointees designated by the members.

## **2.4 REPORTING ENTITY**

### **2.4.1. The Rowan University/Rutgers-Camden Board of Governors**

The Board is an innovative partnership between two world-class institutions that will create meaningful shared research and education opportunities, serve as a significant economic engine for the State of New Jersey, and produce numerous benefits for the City of Camden. The Board’s first building, the Joint Health Sciences Center, opened in the Fall of 2019.

The Joint Health Sciences Center is based on the Mesh Economy model, which co-locates students from different academic disciplines in order to share laboratories, equipment and classrooms. This exposes students to a broader field and depth of educational rigor, and encourages the connection of talents, goods and services. The Joint Health Sciences Center has multiple users, including Rutgers-Camden, Rowan University, the Cooper Medical School at Rowan University, the Rowan University School of Osteopathic Medicine, Camden County College and the Board’s administrators. The building is segmented into two different structures to ensure compliance with different funding stream mandates.

Eds and meds are an important economic catalyst for Camden and the State of New Jersey. It is increasingly understood that universities, health systems, and research institutions, are important providers of educational offerings, medical services, and breakthrough research. As such, these entities are essential participants in the State's aim to compete for economic growth, for knowledge workers and innovation activity that drives growth in today's economy. Many institutions, in turn, understand the importance of being a "good neighbor," and work to ensure that their physical presence confers many layers of economic gains and social benefits to their immediate neighborhoods.

Concentrating this kind of activity on the Joint Health Sciences Campus enhances New Jersey's participation in the nation's health care occupations, projected labor demands and strengthens its ability to attract knowledge work, research funding, and corporate presence. Since a growing proportion of Americans seek high-amenity, knowledge-rich regions with high-quality health care resources, the establishment and growth of the Joint Health Sciences Campus in southern New Jersey improves not only the State's new business but also resident attraction efforts.

#### **2.4.2. Accounting Policy/Description of Funds**

The Accounting Policies and Procedures Manual as adopted by the Board on November 13, 2018, are available online at [www.rurcbog.com](http://www.rurcbog.com). The Association follows the same accounting policies and procedures.

#### **2.4.3. Basis of Accounting - Board**

The Board's Financial Statements are presented in two methods, each with different accounting basis: government-wide statements and fund financial statements.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the government. The Board's operations consist of governmental activities, which are supported by revenues appropriated by Rowan University and Rutgers-Camden. The Board has no business-type activities that rely to a significant extent on fees and charges for support. If the Board had business-type activities, such activities would be reported separately from governmental activities. The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. It is the policy of the Board to not allocate indirect expenses to functions in the statement of activities.

In regards to the fund financial statements, the Board segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate

legal compliance. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Fund financial statements report detailed information about the Board. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a single column.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Appropriations from Rowan University and Rutgers-Camden are recognized as revenues in the year for which they are appropriated. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are deemed both available and measurable. Available means when revenues are collectible within the current period or soon enough thereafter to pay liabilities of the current period.

Reimbursable-type grants and interest associated with the current year are all considered to be susceptible to accrual and are recognized as revenues of the current year. All other revenue items are considered to be measurable and available only when cash is received by the Board.

#### **2.4.4. Basis of Accounting - Association**

The Association Financial Statements are presented using generally accepted accounting principles for a non-profit condominium association.

#### **2.4.5. Location of Records**

Computerized files, accounting records, documents, vouchers and reports are found at the Board's office located at 201 Broadway, Suite 440, Camden, New Jersey.

#### **2.4.6. Employee Retirement System**

Employees of the Board who are eligible for pension coverage are enrolled in the New Jersey Public Employee Retirement System (PERS), established by Chapter 84, P.L. 1954, on January 2, 1955 after a repeal of the laws creating the former State Employees Retirement System. The system is maintained on an actuarial reserve basis.

Generally, all public employees in New Jersey not required to become members of another contributory retirement program are normally required to enroll in this system.

The Association has no employees.

### **2.4.8. Furniture and Office Space**
